A FIGHT IN THE SIERRA MADRE.

MEXICAN TROOPS ATTACK, DEFEAT AND DISPERSE A BODY OF HOSTILES.
SAN FRANCISCO, May 11.—A dispatch this morning from Hermosillo, Mexico, dated the 10th, says: Colonel Torres returned last night from the Sierra Madre. He was said to have been approaching the Apaches twenty days, found them entrenched in a strong hold, attacked them with 300 troops and destroyed the Indians. The troops then followed the Indians, chasing them in the rear at the point of the bayonet. The Indians fled, leaving eleven dead. Five soldiers were killed and eight seriously wounded. Colonel Torres says Apache Indians fought savagely. They were armed with bows and rifles. Colonel Torres thinks the Indian troubles in Sonora are ended. The troops returned to Guanajuato and Monzuem with the wounded and to re-plenish their rations.

RAILWAY AFFAIRS.

TALK OF A RIVAL LINE TO THE PACIFIC COAST.
CHICAGO, May 11.—A morning paper prints the following: "It is stated by a well-posted outsider that a matter of grave importance is brewing in the management of the Chicago, Milwaukee and St. Paul railroad. About six weeks ago S. M. Merrill, General Manager of the line, with members of his family and several friends, among those certain well-posted Eastern capitalists, started from Milwaukee in a special car for San Francisco. They traveled through the West over the Union Pacific, Central Pacific and Southern Pacific, to Mexican Pacific, Denver and Grand Junction, Topeka and Santa Fe, Atlantic and Pacific and other roads, and only returned last week. In an interview with a friend he responded: 'My wife and I said we returned to San Francisco to see what had been done with the road and its grand resources.' It is now learned that it is little doubt that the purpose of Merrill's visit to the west will be to talk to California, who is building of another extension of the Chicago, Milwaukee and St. Paul to San Francisco, in active competition with the Union Pacific, Burlington and Northern and the Atchison, Topeka and Santa Fe California railroads. It is known that this road is now engaged in extending their line to Deadwood, and that the track is laid to Chamberlain, D. T., and will take the road no more to build it on to the Pacific Coast."

BEYOND THE BRINK.

A FIGHT IN WHICH THE ARMED AFGHANIANS WERE VICTORY.
CAUCASUS, May 10.—A fight has occurred between the forces of the Amir of Afghanistan and Shinwari, resulting in the defeat of the latter with 200 killed.

A BUSTED BROKER.

LONDON, May 11.—L. Mosley, a money broker, has failed, with liability of £200,000. Many feel that heavily another Ishmael Canal demanded. LONDON, May 11.—A meeting of influential ship owners today, representing three million tons of Suez canal traffic, adopted a resolution favoring the construction of another canal across the Isthmus.

"WEED" IN BRITAIN.

LONDON, May 11.—Children, children of the Exchange, have agreed to a truce in the war between the Government and the Government would consider, during the present year, the question of permitting growing tobacco in the United Kingdom for Agricultural Tenants.

LONDON, May 11.—The Chancellor of the Duchy of Lancaster introduced a bill in the Commons yesterday by which agricultural tenents will be entitled to receive, when their tenancies expire, compensation for any improvements they may have made to lands they occupied. This will be the principal measure brought before the House during the session. By it landlords, by right of distress, will be limited to a sum equivalent to one year's rent.

AN ILLINOIS MURDER HANGED.

CHICAGO, May 11.—A morning paper prints the following: "It is stated by a well-posted outsider that a matter of grave importance is brewing in the management of the Chicago, Milwaukee and St. Paul railroad. A FORGED COPIE OF THE CHINESE CONSTITUTION.

NEW YORK, May 11.—Andrew Smith, President of the Manhattan Fire Insurance Company, has been arrested and held in bail in the sum of \$5,000, being charged with perjury, in swearing to the truth of his annual report of the Company for 1882 to the New York Insurance Department.

SCATTERING THE GAMBLERS.

NASHVILLE, May 10.—Five thousand dollars' worth of gambling apparatus was burned in public this afternoon, by order of the Criminal Court. Five hundred gamblers are leaving the city. A dogged big show.

THE NORTHERN PACIFIC PUSHING ON.

SAN FRANCISCO, May 11.—A Portland, Oregon, dispatch says that the track of the Missoula Division of the Northern Pacific reached the 376-mile yesterday, 590 miles east of Portland. It is expected that the western division will reach Helena by June 10th. The company will then proceed through from Helena to St. Paul, far, \$120 including 126 miles of steaming. The Oregon and California Railroad announced that the California extension will be opened to-day to Glendale, 65 miles south of Roseburg.

SAFETY CLOTHING.

EX-JUSTICE CROCKETT REPORTED IN A DYING CONDITION, ETC.

SAN FRANCISCO, May 11.—Hon. J. A. Crockett, ex-justice of the Supreme Court of California, is reported in a dying condition.

The fall meeting of the Blood Horse Association is fixed for April 11th, 13th, 16th and 18th. Messrs. Finnegan, Schwartz and Son were appointed as a committee of arrangements.

Sen. Edward C. Collyer, of the Senate, has been visiting Senator Sharpe of Maryland, President of the Genesee Flouring Mills in this city, has just learned that the instrument now figuring so conspicuously in dynamite plots, is the same as one offered to him by the Boston firm of Remington, urging him to aid in preventing it. The apparatus consisted of a clockwork enclosed in a tin box and a cap containing fulminate of nitro-glycerine, and to be used as an exploding dynamite bomb. A patent was secured, but owing to some difficulties was never utilized. According to a description in an Edinburgh newspaper, the Irish machine is identical with the one used in the manufacture of the Oregon fruit crop.

SAN FRANCISCO, May 11.—The Portland and Oregonian says this morning that the fruit crop is a failure generally throughout Oregon and Washington Territory. In the immediate neighborhood of Portland all the pears, plums and prunes are killed. Cherries will yield half a crop and apples half to two-thirds. The fruit weather in February and March.

FATIGUE. Mr. John C. Gandy, Commander-in-Chief of the Grand Army of the Republic, arrived here this evening. Addresses of welcome were delivered.

LOTTIE HUNSSINGER.

DEATH CAUSED BY AN OVERDOSE OF POWERFUL PILLS.

SAN FRANCISCO, May 11.—The result of the inquest held this morning regarding the death of the young milliner, Lottie Hunssinger, was that the deceased came to her death from an overdose of morphine pills. As has been stated, the unfortunate young girl died suddenly, while in the office of Seth Cook. After the inquest of the deceased was concluded, and the testimony of medical men given, Mr. Cook testified: I reside at 302 Montgomery street; occupation, milliner; man; on the day of the trial I was seated at my desk, Dr. Dutch, who has an office in the same building; she came to my room about 11:30, just as I was leaving for breakfast; she saw some Appolinian and some other girls; she said to me, for some time I told her she could have it. I then told her I was going to the Nevada restaurant for breakfast, and that she could join me. She replied that she would come. We sat down to eat about fifteen minutes after me. A few minutes later I noticed she was taken with spasms. I said to her, "What is the matter?" She replied, "I have a pain in my head." I took a pill in my sideboard, and I poured out six or eight in my hand and took them. "I remembered," continued Mr. Cook, "that I had some of Fowler's neuralgia pills, very powerful." He had tried one, and called for Dr. Ayers, who advised her to be taken home. She objected, saying she wanted to be taken to my room. I told her to go to the hospital. The chemical analysis of the stomach demonstrated the presence of strichnine and strichnina. An analysis of Fowler's neuralgia and nerve pills showed that they contained strichnina and belladonna. Replying to the Coroner, Dr. Ayers said that the spasms grew worse, and I called for Dr. Ayers, who advised her to be taken home. She objected, saying she wanted to be taken to my room. I told her to go to the hospital. The chemical analysis of the stomach demonstrated the presence of strichnina and strichnina. An analysis of Fowler's neuralgia and nerve pills showed that they contained strichnina and belladonna.

The physician consoled until half past six o'clock, when she expired. I had known Miss Hunssinger a few months. The physician advised her to be taken home. IS IT THE SOLID SOUTH?

The over-confident Democracy are wot to assume that, as a matter of course, their party will make a clean sweep of the Southern States in the next Presidential campaign. But this confidence is not shared by shrewd politicians, who are capable of viewing the Presidential landscape without bias or prejudice. Many such there are who firmly believe that the Bourbons have lost their grip on several of the Southern States. Senator Plumbe, of Kansas, is one of these. He is quite confident that the Republicans, at the next Presidential election, will carry Virginia, North Carolina and Florida, casting up the chances of the two parties in the next national contest he gives New Jersey to the Democracy, and claims New York for the Republican candidate. In a recent interview the Senator said:

"The Rep. party is a powerful party, it may seal its fate in the Presidential elections, but it manages to get together once in four years. It is independent, and always finds with it, its friends, and a good deal of good deal, shows signs of irretrievable decline until after the Democratic convention, when the Rep. ticket will turn to its own side with the result that it is good enough for me once more." You will find the party on deck for action next year, and it will break the Democratic backbone in the same way—right where it believes it is best protected.

Senator Plumbe thinks the Republicans can have Ohio by nominating an Ohio man to head the ticket. We do not believe it is essential that this be done in order to carry the Buckeye State. Ohio has for twenty years past had a healthy and unwavering habit of swinging into line for the national Republican standard-bearer, no matter how much she was given to "sporting" in "off years."

A COUPLE OF "MOOSES" LOOSE.

"Los Angeles and its Mirror" have received the following first-class notice, done in rhyme which the Times hastens to lay before the waiting populace for their admiration. The puf proper is preceded by a personal and poetical preface, as follows, to wit:

THE "POME" PRESENTED,
My mind friend and Deer Sir,
The Moose, Being Picked, of its course for:
I hope not will not forget, or call me short,
With your consent I am very truly your
ex-chap.

Then comes the gent itself:

LOS ANGELES and its MIRROR,
From which what art thou lost,
From train to town, where are you cross'd
The church, with cabin Bell,

Five years from, in this little while,
A change I see, from sadness, to glad smile;
That art not now to buy my round,
They long multiplyed, and cover'd around.

A Maiden look, of late, then hast come;

A smiling face, thy Person all flumed;

And thy fair bosom, bleeding Reastless

Doth that cause sorrow, for Angel to weep;

From the old landmarks the extended Plain;

Pass contracted, Flowed, and waving graine;

Amazed and frightened were in despair,

When rose up one with thin wild hair.

His voice rang out in wild strain;

"I am the Moose, King of the world,

No more on California's soil we'll ride,

We'll soon be scattered far and wide."

But when we no more see the orange and vine

Will always remember the hero, Louis Sours.

ANOTHER.

The above is a gem of purest ray

serene dug up from the sparkling

sands of Clear Creek canon; but here

is another melodious song, whose ravishing cadences are harshly hustled about by the discordant scream of the locomotive:

Once in Los Angeles we rode,

Back to the hills with stars and jars,

Amazed and frightened were in despair,

When rose up one with thin wild hair.

His voice rang out in wild strain;

"I am the Moose, King of the world,

No more on California's soil we'll ride,

We'll soon be scattered far and wide."

But when we no more see the orange and vine

Will always remember the hero, Louis Sours.

A COLUMN of "Letters from the People" appears on the fourth page. Among them are: "A Kick from Buena Vista Street," "Suggestions for a New Sunday Law," some observations about doubtful practices on the part of jurors, and some very practical, pertinent and timely suggestions in reference to the numbering of streets, which work is now going on, in compliance with the ordinance of the City Council. Our correspondent points out very clearly a radical defect in the plan as adopted, by which, if carried out, confusion and complication, instead of order and simplicity, will be secured. The object should be to adopt a plan by which any given number, on any street, can be found with the least possible difficulty. It is demonstrated that this object cannot be attained under the plan now being put into effect. It is not too late to remedy this error by changing the plan. The Times thinks the matter of sufficient importance to justify it in inviting the attention of the members of the City Council to it at their meeting this evening.

Commenting upon the need of a political "shake-up," the Atlanta Constitution says that "if the shake-up is to be violent, a great many Republicans would be ready to say that an adequate overturning would land a good many Democrats in the same place." (Kansas City Journal.)

THE Los Angeles Herald protests that it does not mean to engage in a purposeless war of words (that is the English of its meaning) with the Times over questions amphibious; and then it goes right on repeating its unfounded assertion that the table of the decade's rainfall, copied from the Signal Service records, and published in our issue of the 8th inst., is a "gross blunder," "misleading," mischievous, and not "applicable to this section." The Herald's persistent wrong-headedness causes it to make an exhibition of itself. The Times has presented exhibits of the decade's dampness in three forms, and all are as correct as official figures can make them, viz: (1) by complete years, from January to December, inclusive; (2) by months; and (3) by days. As the rainy season here being, as every child knows, generally embraced within the period from October to May, inclusive, the Herald's assertions to the contrary notwithstanding, these exhibits are neither incorrect, misleading, mischievous, nor applicable to this section, but on the contrary are the very reverse, and conspicuously so. They are, in short, all right, and the Herald is a worm. As a weatherwise Solomon the Herald is a lamentable failure.

A Pretense Fancied.
From the Sacramento Record-Union.]
A great deal of matter is being printed about the bravery of General Butler, and the boldness of his men at the Tewksbury crucifixes, which is very true. But then it should be remembered that if everyone read a paper like the Times or the Mail and Herald, and did not mind that they could not understand the words, wars, divorces, unhappy marriages, business failures, sickness, or other things to cloud the lives of the people. In fact the people might eventually become so entirely hopeless that they could not even afford to go to the post office, so the after all it is a blessing in disguise that there is now and then a citizen who does not honor his distinguished productions with his attentive perusal.

A REUNION of the Army of the Potomac will take place at Washington on the 16th and 17th of the present month. It is expected that there will be present as many as 10,000 old veterans. There will be a grand street parade; a public meeting at which several orations will be delivered; a poem written for the occasion will be read by George Alfred Townsend; and the second day there will be an excursion to Mount Vernon.

THE Macon (Ga.) Telegraph is agitated by a report that the ship-of-war Kearsarge has been well received in New Orleans, and in its excitement says: "We remember it especially in the light of the cowardly advantage it took of the Alabama in the naval duel off the coast of France. We can admire a brave, fair enemy, but not one that takes a sneaking advantage." The "bravery" of the Alabama attacking merchantmen and running away from armed vessels is notorious.

A large hole is across the crossing on Main street at the intersection of Commercial and Clark, and is still exists under the bridge. Branches also exist in Austria and England. After 1730 during a general wave of Masonry, the Order was highly regarded.

In the introduction, the latter America of the same Knights Templar, as in all other things, with that vigor of intellect and perseverance of will characteristic in Americans, the Order has been improving its methods, and triumphed up charges of immorality and heresy against them. The primal cause of their existence is no more.

The San Joaquin Valley, however, to this time had been limited to him, but at the Council of Troyes, in A.D. 1377-82, St. Bernard of Clairvaux was compelled to disavow the Order, and the Order, but strangely left in oblivion an old-time Smith of Los Angeles, whose name smothered in Smithersons all the other Smiths. Cannot another verse or two be added to the poem?

Did They Do It?

To the Editor of the Times—Sir: In yesterday's Times said that at the close of the Baldwin trial, the defense had been strengthened by the admission of the witness, Mr. Baldwin, that he had given a false statement to the court without prejudice, to which plaintiff excepts; execution ordered to issue against plaintiff for costs.
